DETAILED ACTION

Claim Rejections - 35 USC § 102

1. The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless –

(b) the invention was patented or described in a printed publication in this or a foreign country or in public use or on sale in this country, more than one year prior to the date of application for patent in the United States.

2. Claims 1-34 are rejected under 35 U.S.C. 102(b) based upon a public use or sale of the invention. In the declaration filed on 5/2/07, applicant's admitted that was in **public use** prior to 10/24/02, which is more than a year prior to the filing of the Non-provisional application (10/29/03).

3. Applicant's arguments, see page 12, lines 14-22, filed 8/24/07, with respect to rejections of claims 1-32 have been fully considered and are persuasive. The rejection of claims 1-32 has been withdrawn.

4. Applicant's arguments filed 8/24/07 have been fully considered but they are not persuasive. It is the applicant's position that "**neither the Declaration nor the supporting documentation makes any mention or reference to any public use of the invention at all. There is simply nothing in the Declaration that relates to public use in any way.** The Declaration merely explains that the invention was made (conceived and reduced to practice) prior to October 24, 2002". However, it is noted that the supporting documentation "record of the invention" **page 1, section D**, clearly stated that the invention was in public use, more than 12 months before filing the instant

application. The location of the use was **"NavSys Inc., Colorado Springs, CO; PLT STO for Stricom/Cecom"**(See section D of the Record of the Invention, page 1).

Conclusion

5. **THIS ACTION IS MADE FINAL.** Applicant is reminded of the extension of time policy as set forth in 37 CFR 1.136(a).

A shortened statutory period for reply to this final action is set to expire **THREE MONTHS** from the mailing date of this action. In the event a first reply is filed within **TWO MONTHS** of the mailing date of this final action and the advisory action is not mailed until after the end of the **THREE-MONTH** shortened statutory period, then the shortened statutory period will expire on the date the advisory action is mailed, and any extension fee pursuant to 37 CFR 1.136(a) will be calculated from the mailing date of the advisory action. In no event, however, will the statutory period for reply expire later than **SIX MONTHS** from the mailing date of this final action.
